- Ideal for use in Cleanrooms, Industrial Health & Safety, and Air Quality applications
- >10 hours continuous operation on a fully charged battery
- Industry's first Sleep Mode and Power Conservation Mode with intelligent battery
- Unparalleled and most comprehensive internal self-diagnostics of any handheld particle counter
- Real-Time Meter detects particle contamination sources with visual and audible indication
- Internet of Things (JSON) communication allows for network or cloud based data options

The Airy Technology Japan P8-306 Handheld Particle Counter measures 0.3 to 25.0 µm with a flow rate of 0.1 CFM (2.83 LPM). Easy to configure, this instrument displays up to 6 user-selectable size channels as well as temperature and relative humidity. View data and generate ISO 14644-1, EU GMP Annex 1, or FS 209E reports on screen or via printer, USB key, real time through its versatile output options, or export to Instrument Management Software (IMS). Airy Technology Japan counters can be controlled and monitored remotely via web browser. The P8-306 mass concentration mode approximates density in µg/m<sup>3</sup> and allows for density and refractive index corrections to ensure accuracy.

All Airy Technology Japan counters meet ISO 21501-4 and JIS B9921. The P8-306 ensures compliance with an on-board pulse height analyzer.
